Contributions are not deductible as charitable donations for federal income tax purposes. Federal law requires political committees to use their best efforts to obtain and report the name, mailing address, employer and occupation or each individual whose contributions aggregate in excess of \$200 in an election cycle. Contributions from corporations, federal contractors and foreign nationals are prohibited. All contributions are required to be made with personal funds and not those of another. An individual or non-multicandidate PAC may contribute up to \$6,400 to the general election. Couples may contribute \$12,800 to the general election from a joint account but such a contribution requires both signatures.
